

Kaitlyn Steck | Resume

Graduate Assistant

: 616-206-6603

ksteck2@huskers.unl.edu

Education

Doctor of Philosophy- Psychology: Neuroscience and Behavior - Lincoln, Nebraska

August 2024 - Present

* Advisor: Dr. Rick Bevins

Master of Arts- Psychology: Behavior Analysis - Kalamazoo, Michigan

Aug 2022 - April 2024

* Advisor: Dr. Lisa Baker

* Thesis: Evaluation of a Dietary Probiotic Supplement on Methamphetamine-Induced Impulsive Action in Rats Maintained on a Differential Reinforcement of Low Rate Schedule

Bachelor of Science- Psychology: Behavioral Science - Kalamazoo, Michigan

Aug 2019 - April 2022

* Minor: Data Analysis

Publications

Barrett S.T., McNealy K.R., Knabel, M.L., Burrichter, R.M., Steck, K.A., & Bevins R.A (2025). The Inside Story: Interoceptive Pavlovian Conditioning with the Nicotine Stimulus. Journal of Experimental Psychology: Animal Learning and Cognition.

Presentations

Steck, K.A., McNealy, K.R., Ramirez, H., Flynn, A., Knabel, M.L., Smyth, S., Barrett, S.T., Bevins, R.A. (2024). Amplification of the conditioned reinforcing value of the nicotine stimulus is sensitive to the temporal contiguity between the nicotine CS and sucrose US. 2024 Symposium on Substance Use Research | Rural Drug Addiction Research Center.

| McNealy, K.R., Steck, K.A., Ramirez, H., Flynn, A., Knabel, M.L., Smyth, S., Barrett, S.T., Bevins, R.A. (2024). Amplification of the conditioned reinforcing value of the nicotine stimulus is sensitive to the temporal contiguity between the nicotine CS and sucrose US. Pavlovian Society, Indianapolis, Indiana.

| Brabant, P.D., Steck, K.A., Baker, L.E. (2024). Evaluation of a Dietary Probiotic Supplement on Methamphetamine-Induced Impulsive Action in Rats Maintained on a Differential Reinforcement of Low Rate Schedule. Michigan Society for Neuroscience Annual Meeting, Ann Arbor, Michigan.

| Steck, K.A. and Baker, L.E. (2024). Pro-impulsive Effects of 1-(1-benzofuran-5-yl)-2- (methylamino) propan-1-one (BK-5-MAPB) Enantiomers in Rats. Michigan Society for Neuroscience Annual Meeting, Ann Arbor, Michigan.

| Steck, K.A. and Baker, L.E. (2024). Evaluation of a Dietary Probiotic Supplement on Methamphetamine-Induced Impulsive Action in Rats Maintained on a Differential Reinforcement of Low Rate Schedule. Graduate Student Research Day, Western Michigan University, Kalamazoo, Michigan.
